Combat Hunter Curriculum

7 Feb 2014

The MarineNet Combat Hunter curriculum is designed as an introduction to Combat Hunter for enlisted Marines (E1-E5) and junior officers (O1-O2), particularly those with Ground Combat Element (GCE) MOSs; however, Marines of any rank and experience can enhance their combat lethality by completing the courseware.

Completion is recommended but not required prior to attending resident Combat Hunter instruction.

Combat Hunter Curriculum consists of three courses:

- Combat Awareness
- Combat Profiling
- Combat Tracking

The Combat Hunter curriculum aids in the training of the 1000 and 2000 level individual training events contained in the Infantry T&R; NAVMC 3500.44_.

Each course features visually rich content as well as interactive activities that give learners an opportunity to practice reading the human terrain, analyzing baseline information, and interpreting critical cues to inform decisions.
